DIGITAL MARKETING CALENDER:

Tool Used: Google Calendar, Gmail Account

Then, WIX Calendar was used to schedule, remainder alert, track the campaign planned:

CONCLUSION:

Digital marketing is vital for every business scenario as promoting through papers, televisions and radio does not have that much reach as compared to this new method. This project has helped the team to learn how to sell our product to target customers easily and efficiently.

In an overall view, this project has been a success as the traffic of our website is slowly increasing. Twitter and YouTube have shown the most reach as compared to other social media platforms and has therefore led more traffic to our website more. The website is connected to WI Analytics which shows the insights about the website. The main goal was to promote the website, for which social media platforms was a great medium.

In future, the business needs to maintain its social media presence and try out inorganic methods to boost results first and then go on to organic ways as the business first needs brand awareness which would be difficult in the case of organic methods. Also, devising an improved digital marketing plan with better tools must be incorporated to enhance traffic and sales of the business.
